Downtime Level 2: Production Outage

Read-Only Access Instructions:

1. Access **Read-Only** by selecting the **DownTime Only** or **Local DownTime Only** shortcut on your desktop.

2. Once launched, log in using your standard Epic username and password.

3. Read-Only Access provides a snapshot of Epic patient information taken prior to the downtime event. Patient records, results, medications, and other clinical information may be viewed; however, new documentation, orders, and updates cannot be entered.
